

How to Watch Movie House TV on Windows PC

1. Install VLC Player. Go to <https://www.videolan.org> to download VLC for Windows. You can install 32bit or 64bit version.
2. Open VLC, click on Media > Open Network Stream. Now put in your Movie House TV link in space (you can cut and paste link) click play. Please be patient it is loading over 6,000 live TV channels, over 16,000 VOD and 1,300 TV series
3. VLC will autoplay the first channel in the PLAYLIST. To view the full playlist, click on VIEW > PLAYLIST. It will show you all channels and movies on demand you have.
4. You can search for a channel using the search space in the TOP RIGHT CORNER.
5. Now you can use VLC to stream Movie House TV on your PC anywhere when connected to high speed internet.

Enjoy your 24/hrs trial or MHT Streaming service!
